

**Everybody Up 5**  
**Unit 2: Lesson 4: Plants**

**EU: Unit 2: Lesson 4: Read, Choose and Complete.**

roots	leaves	seeds	stem
underground		flowers	fruit

1. Apples, oranges, and tomatoes are all \_\_\_\_\_.
2. \_\_\_\_\_ help the plant to make seeds.
3. \_\_\_\_\_ grow and become new plants.
4. The \_\_\_\_\_ of a plant grow \_\_\_\_\_.
5. The \_\_\_\_\_ helps the plant to stand.
6. The \_\_\_\_\_ use the sun to make food for the plant.

**EU: Unit 2: Lesson 4: Read and Answer.**

There are over 250,000 kinds of plants.

Leaves use the sun to make food for the plant.

Roots usually grow underground.

You can find a seed in an orange.

1. How many kinds of plants are there?

2. Where do roots usually grow?

3. Which part of a plant can you find in an orange?

4. Which part of a plant uses the sun to make food?
