Dolphins

Dolphins are very interesting animals. Most dolphins live in the sea, but some of them live in rivers.

There are 39 different kinds of dolphins. Many dolphins are grey, but some are black. Orcas are black and white. They're the biggest dolphins.

Dolphins are very intelligent. They are more intelligent than other sea animals, like the shark. Did you know that dolphins can talk to each other, just like people? Dolphins are very friendly, too. They like to play, jump and swim around boats.
