Layers of the Earth

Name the 4 layers of the Earth in order:

Fill in the blanks with the following words:

Crust	Outer Core	Mantle	Inner core
Magma	Earthquake	Solid	Liquid

The layer made of melted rock is the _______.
 The ______ is at hot as the sun.
 We are standing on the ______.
 The crust can break with _____.
 The ______ is solid because of the pressure of the Earth.
 Melted rock can also be called ______.
 The crust and the inner core are ______.
 The mantle and the outer core are ______.

CREATIVE THINKING: What do you would happen if the layers of the Earth were organized upside down?
