

Boiling and Melting Points

1. Look at the picture and choose the correct options.

Thermometers are used to measure _____.

- a) Which thermometer shows the **boiling point** of water?
- b) Which thermometer shows the **melting point** of ice?
- c) What is the **lowest** temperature shown?

2) Look at the information in the chart and answer the questions.

liquid	boiling point in °C
A	139
B	35
C	108
D	383
E	100

- a) Which liquid has the lowest boiling point?
- b) Which liquid is pure water?
- c) What is the melting point of liquid D? How do you know?
