“Proposing to get the job”

Hello. Good morning. I wonder if you can help me. My name is Emma Heath. I'm looking for a job as an administrator.

At the moment I'm working at a solicitor's as a clerk. Do you know Blame, Payne and Co.? I've been working there for about two years but there doesn't seem to be any chance of promotion, so I'm trying to find something else.

The other thing is, I'm moving soon, so I'm looking for a job in Leicester. I would prefer it if it was in the city centre really. My current address is 23 Terraced Walk, Derby, DE23 3GP, but I'm going to be moving out on the 30th, and then I'll be living with my mum until I've found a house to rent in Leicester. After the 30th you'll be able to contact me at my mum's. Her address is 8 Cedars Lane, Swinscote, Derby, DE40 9UR.

By the way, my mobile number is 079421 645784. If you do ring me on my mobile, please can you ring after six because I'll be at work all day and my boss doesn't know that I'm planning on leaving.

My current salary is 11K per annum and I would like to find something for at least thirteen or more. I'll bring my CV in to your office once I've finished updating it.

Oh yes, last month I went on a four-day intensive first aid course, which makes me fully qualified to give first aid.

Drinks to Help You Lose Weight

People say that we can lose our weight if we control what we eat and take regular exercise. However, losing weight can be simply done by controlling what we drink. There are five kinds of water that we have to consume when we want to lose weight.

Drinking at least 8 liters of water a day will be best choice. Water contains a lot of minerals useful for our body. However, sometimes we get bored if we drink water all the time. If you are bored with drinking water, you can try adding lime, cucumber, fresh lemon slices, and even a slice of tomato to make it a bit flavor without adding many calories.

The second drink is vegetable juice. Drinking vegetable juices is a sterling way to obtain the fiber and nutrients necessary for your body to fuel your weight loss. Vegetables juice will keep you fuller longer. It will be better if you consume a low-sodium variety.

The third drink is unsweetened tea, like green tea, black tea, and oolong tea. It has been proven that green tea contributes to increased metabolism and weight loss rapidity. Black and oolong teas are filled with antioxidants, which can help get rid of toxins in your body. The fourth is black coffee. It suppresses hunger by supplying a boost of caffeine which spurs your weight loss when you drink it in the morning and afternoon. It heats up the body and boosts metabolism since research has proven that it encourages thermogenesis. The last drink is skimmed milk. Milk can build your muscles and strengthen your bones since it is an eminent source of lean protein, vitamin D, and calcium.

From the facts above, you can maintain your weight and your health by choosing the right drink.
