### UK weather forecast for today

In Scotland, temperatures went down to minus 6°C last night. There is a lot of <sup>1</sup>ice / cloud on the roads today and you can see some <sup>2</sup> snow / thunder on the mountains.

Northern Ireland and the north of England are going to have more <sup>3</sup> ice / rain.

In Wales, it's a good idea to stay indoors today because there's a very big <sup>4</sup> storm / fog with lots of thunder and lightning and very high <sup>5</sup> winds / rain.

The east of England is dry, but it is difficult to see in some places because there is heavy <sup>6</sup> sun / fog.

There are some <sup>7</sup> clouds / rain in the south of England, but it is warm and sunny and there is more <sup>8</sup> sun / lightning to come later.
