

**Examen Parcial de Matemática**

**MIRA CON CUIDADO Y UNE LAS FRACCIONES DE LA IZQUIERDA CON LOS RESULTADOS QUE ESTAN EN LA PARTE DE LA DERECHA**

$$\frac{6}{12} + \frac{3}{12} + \frac{2}{12} = \blacksquare \quad \blacksquare \quad \frac{30}{12}$$

$$\frac{3}{24} + \frac{6}{24} + \frac{2}{24} + \frac{1}{24} = \blacksquare \quad \blacksquare \quad \frac{70}{24}$$

$$\frac{9}{12} - \frac{2}{12} = \blacksquare \quad \blacksquare \quad \frac{20}{12}$$

$$\frac{12}{24} - \frac{8}{24} = \blacksquare \quad \blacksquare \quad \frac{11}{12}$$

$$\frac{5}{12} \times \frac{6}{1} = \blacksquare \quad \blacksquare \quad \frac{9}{24}$$

$$\frac{7}{8} \times \frac{10}{3} = \blacksquare \quad \blacksquare \quad \frac{12}{24}$$

$$\frac{1}{3} \div \frac{8}{9} = \blacksquare \quad \blacksquare \quad \frac{7}{12}$$

$$\frac{2}{4} \div \frac{3}{10} = \blacksquare \quad \blacksquare \quad \frac{4}{24}$$
