

CUADRILÁTEROS

1. Coloca cada fórmula con su respectiva gráfica

D

$$x = \frac{a + b}{2}$$

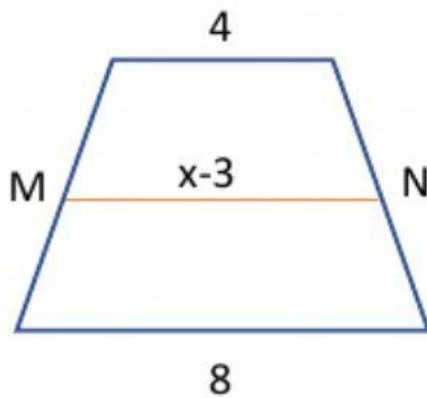

$$m\angle x = 90$$

$$x = \frac{b - a}{2}$$

$$x = \frac{m \propto C + m \propto D}{2}$$

$$x = \frac{m \angle C - m \angle D}{2}$$

2. Determina el valor de x , si MN es mediana.
