Class	:	IX- ...
Day, Date	:	Tuesday, August, 24th 2021
Lesson	:	English
Material	:	Procedure Text (Electronic Devices)
Meeting	:	Fourth Meeting

I. Read the text carefully and give the mark for the correct statements!

Our old refrigerator was broken because of the electric shock last night. Then, my father asked me to go with him to the kitchen store to buy a new one.

In the kitchen store, I saw lots of things. In one corner, I saw refrigerators, blenders, mixers, washing machines, fans, and other electronic devices. In the other side, I saw plates, bowls, glasses, mugs, spoons, knives, and other cutlery tools. There, I also saw some cooking utensils, like woks, frying pans, pans, stoves, and so on.

When we saw the price, my father said, "I think we had better fix our old refrigerator." Then, we went home with only 1 set of new plates, glasses, and spoons with Doraemon picture on it — my favorite cartoon character on them.

Statements	True	False
Yesterday, there was a storm.	✓	
1. Our television is broken.
