NAME : CLASS :

FORM 2 : UNIT 9 INTEGRATED SKILLS

BY MDM INTAN SMKSJ

- Remember to take some **plasters** with you in case you get a blister on your foot from too much walking. Take some **antiseptic cream** too. Use it if you cut yourself by accident.
- Take a **bandage** if you are travelling to a country where there are snakes. If you get a snake bite on your arm or leg, wrap the bandage tightly around the bite.
- You should always put some **sun cream** on your skin before you go out in the sun so that you don't get sunburn.
- Do you always get mosquito bites in hot countries? Remember to take some **insect repellent** to spray over you when you go out at night.
- The heat can sometimes give you a headache. Put a box of **aspirins** in your suitcase and take one or two aspirins with a glass of water.
- Take some **mints** on holiday. Eat a mint if you feel sick when you are travelling.

READ THE ADVICE AND ANSWER THE QUESTIONS.

1.What should you put on a blister?

2.What should you do if a snake bites you?

3.What should you always wear in the sun?

4.When should you use the insect repellent?
