MIREIA'S CONFINEMENT ROUTINE

Hi boys and girls. I'm Mireia and I live in a little town near Vic. I live with my **husband** and my son. As you know we stopped going to school more than a month ago to help **slow down** the transmission of the Coronavirus. Since then my routines have changed a lot.

I usually wake up at about eight o'clock and I do some **house chores** like make the bed, **do laundry**, clean the house etc.. Then, around half past nine my son wakes up and we have breakfast. After breakfast he always watches TV for a while, my husband reads, and I work. I prepare your lessons and check your answers. When I finish my work we usually play games as UNO or MEMORY or sometimes we do some **crafts**. At two o'clock, I or my husband make lunch. After lunch my son plays with his toys while we clean up the **dishes**.

About four o'clock I help my son with his homework. He is 6 years old so he is learning how to read and write. He reads short books, he writes short words, he does some maths and sometimes he plays online educational games. When we finish his homework I work a little bit more or I do an online course and my husband and my son play ball games in the balcony (it is small, but **at least** we can go outside).

In the evening we have dinner around half past eight, then we play family games like MONOPOLY JUNIOR or LIFE and around ten o'clock we put my son to sleep. Once he is sleeping we watch **the news**, a movie or a TV show and finally around twelve o'clock we go to sleep.

And this is my routine during these tough times.

Husband= Marit / **Slow down**= reduir / **House chores**= feines de casa /

Do laundry= fer la bugada / **Crafts**= manualitats / **Dishes**= plats

At least= almenys / **The news**= les notícies

1. Read and answer with: True or False

My routines have not changed with the confinement.

My son wakes up at half past eight.

After breakfast my husband always watches tv for a while.

After working, sometimes we do some crafts.

I always make lunch.

I help my son with his homework.

I am studying online.

We have a big balcony where we can play ball games.

My son goes to sleep around ten o'clock.

My husband and I always watch TV before going to sleep.
