Wildlife Rescue Report

Today I answered a call from a group of friendly neighbors in the city. Several deer has wandered into a backyard. The animal control officer arrived, but the people were onhappy about what he proposed to do. I came with no helpper, but I managed to get the deer onto the truck. The animals were all unhurte. A farrmer helped me herd the deer into the woods. I am hopful that they will not wander back to the city again.
