

## Cell division and specialization

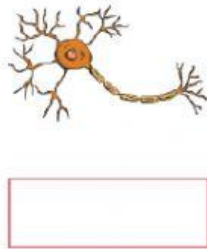

1.- Please label the image with the correct name for the cell:

**Red Blood Cell**

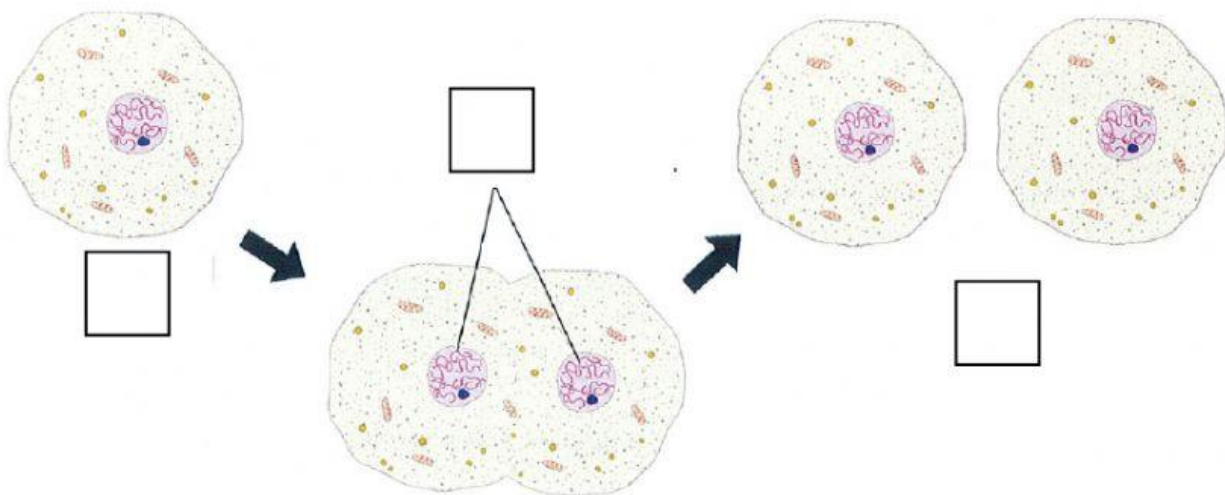

**Sperm**

**Neuron**

**Palisade Cell**

2. Complete the cell division diagram with the correct information

**Fig. 1.14** Cell division

- a) The nucleus of the parent cell makes a copy of itself.
- b) It makes two daughter cells.
- c) The parent cell is big enough to reproduce.
