5. Mary ..... (have) a birthday party three weeks ago.
6. My parents ..... (be) in Paris for 5 years.

III. Read and choose T (True) or F (False)

We must protect the oceans and the seas because they are full of life. If we don't, these important resources will disappear.

Many animals live near the top of the ocean because they like the light. There is lots of food there, too. This part of the ocean is called the "sunlit zone". It goes down to about 137m (450 ft.). Dolphins live here.

The middle layer of the ocean is called the "twilight zone". This is because there isn't much light. It goes down to about 1,000m (3,300 ft.). Few animals live in this layer, but one that does live here is the octopus.

The bottom layer of the ocean is cold and black. It is called the "midnight zone" because the sun doesn't reach below 1,000 m (3,300 ft.). Some amazing animals live in the dark part of the ocean!

1. There are three main layers: "sunlit zone, twilight zone and midnight zone". ***T*** ***F***
2. We shouldn't protect the oceans and the seas because it is hard to do. ***T*** ***F***
3. Dolphins live near the top of the ocean. ***T*** ***F***
4. The sun doesn't reach the "midnight zone". ***T*** ***F***
5. Some amazing animals live in the "sunlit zone". ***T*** ***F***

IV. Look, read and answer the questions

 1. What must we do? →	 2. What can't we do during class? → .....
 3. What do you have to do at home? →	 4. What don't you do on exams? → .....
