### Alligators

Alligators have got short legs, a long and strong tail and bumpy skin. They're reptiles. They live on land and in water, and they can swim very well. Alligators have got sharp teeth and they lay eggs. They're carnivores and eat frogs, turtles, birds, fish and other animals. There are two kinds of alligators – Chinese Alligators and American Alligators. There are fewer than 200 Chinese Alligators left in the wild. There are many more American Alligators. They live in the Southern United States.
