

**Recognize and determine the coordinates.**

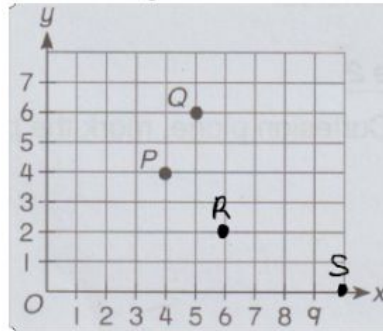

**1. The diagram shows the positions of several shapes on a Cartesian plane.**

Complete the table based on the Cartesian plane.

Shape	Coordinates
	
	
	
	
	

**2. The diagram below shows a Cartesian plane.**

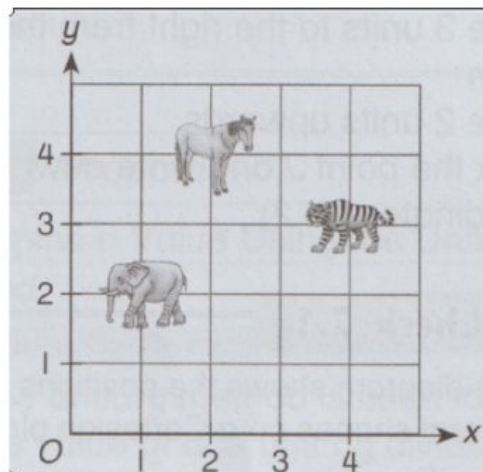

The coordinates of the points P \_\_\_\_\_

The coordinates of the points Q \_\_\_\_\_

The coordinates of the points R \_\_\_\_\_

The coordinates of the points S \_\_\_\_\_

**3. Answer the questions based on the Cartesian plane below.**

The coordinates of the elephant are \_\_\_\_\_.

The tiger is located at the coordinates \_\_\_\_\_.

(2,4) are the coordinates of the \_\_\_\_\_.
