He's fit and he always eats healthy food so he's slim and he isn't overweight. He uses spectacles when he reads now.

This is a family photo from seven years ago. I'm the girl in the photo and that time I had long hair.

Now, my hair is different – it's short and light brown. Of course, my eyes are the same colour – they're blue and my face isn't very different – it's quite small and round.

And my brother? His hair is more modern and spiky now. It's the same colour – dark brown. And he's very tall now – his height is one metre ninety. He's bigger than our dad!

My dad is really different now! In the photo, he had short dark grey hair (but not a lot!). And now he hasn't got any hair – he's really bald but he's got a beard and a moustache!
