

## LIVING AND NOT LIVING

Can you remember these key words about we use to talk about all living things?

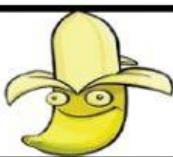

*reproduce waste air food water senses move grow*

Plants are living things. Plants \_\_\_\_\_ from a tiny seed.

Plants are like people because they need \_\_\_\_\_ and \_\_\_\_\_. They have \_\_\_\_\_ and can \_\_\_\_\_ towards light.

Plants make \_\_\_\_\_ by putting oxygen into the air. They need \_\_\_\_\_ because it gives them carbon dioxide.

Plants can \_\_\_\_\_ by making seeds. This means that they can make more plants.
