- 7
- 8
- 9

First of all, press the locking catch.

After that, push two catches in the opposite directions.

Finally, switch on the cellphone. Wait until it is ready to use.

Slide the cover forward button of the phone until locks into place.

Slide the cover then lift it off the phone.

Remove the battery.

Insert the two catches of the back cover corresponding slot in the phone.

Next, slide the SIM card carefully into the slot.

Then, put the battery and align it until snaps into its place.
