

Circle the correct fraction based on the question.

1. Which fraction is improper?

$\frac{2}{3}$     $\frac{5}{6}$     $\frac{7}{10}$     $\frac{9}{5}$     $\frac{1}{2}$

2. Which fraction is proper?

$\frac{6}{2}$     $3\frac{1}{2}$     $\frac{3}{4}$     $\frac{7}{2}$     $\frac{8}{4}$

3. Which fraction is mixed?

$\frac{7}{8}$     $\frac{5}{8}$     $\frac{1}{4}$     $4\frac{1}{2}$     $\frac{9}{5}$

For each fraction, write whether it is a proper, improper or mixed fraction.
