

A LETTER TO MY STUDENT

Hello, how are you?

My name is Alice, I am from Pelotas, Brazil, but I live in Porto Alegre. I am thirty three years old, but my birthday is on September 5, so I'm going to turn thirty four very soon! I am not very happy about it, but that's life... You can't stop time.

I am Virgo, so I'm really introspective sometimes. I like to listen to music, have picnics at the park with a few friends and travel in the summer.

My best friend's name is Yasmine. She is also thirty three years old and she's an Aquarius. She is a little crazy, but she has a good heart. She is smart, super funny and she likes to complain a lot.

We never go to parties, but we enjoy going to bars when there is no world pandemic. Her favourite free time activities include going to the beach, sleeping and reading.

We are both English teachers and sometimes we share our teaching experiences. One of my students is Lanuzia. She is a researcher and she's almost a PhD in Maths. She doesn't like English very much, but I think she is a great student. She has a son called Aislan who is the love in her life.

What about you? What are you like? Who is your best friend? What does she/he like to do?

Hope to hear from you soon!

With love,
Alice.
