LESSON 2: What a computer can and cannot do?

Starting Up

A computer is a machine that can make you work easy to do.

Using a computer, you can do many things at home and in school.

Let Us Learn

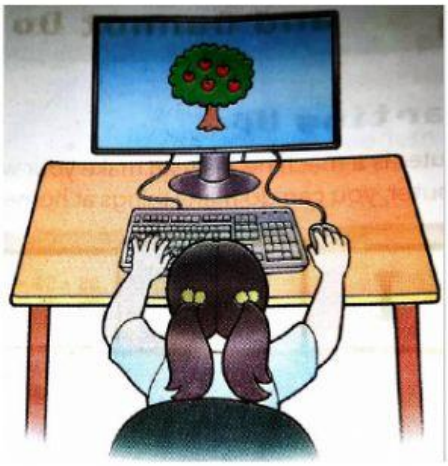

What a Computer Can Do

A computer can help you write words and numbers. It can also store letters, numbers, codes, symbols, or words, and even pictures or drawings.

A B C D	1 2 3 4	# % $ @

God loves you.		
words	picture	drawing

LIVEWORKSHEETS

A computer helps you do tasks repeatedly. You can use it to add numbers as many times as possible. You can draw or paint pictures for as long as you want.

Using a computer, you can play games, listen to music, and watch movies.

A computer helps you learn about many things. You can read about the sun, plants, and animals, soldiers, great men and women, the weather, and holidays.

LIVEWORKSHEETS

A computer helps you talk to people or write messages for others.

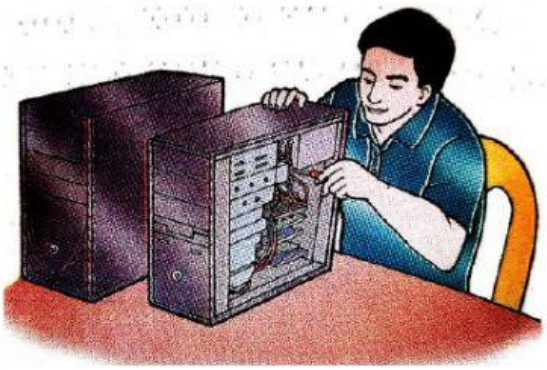

Learn More

When using a computer, tablet, or smartphone, make sure that your eyes are not too close to the screen.

What a computer cannot do

There are things that a computer cannot do by itself.

1. A computer cannot repair itself when it breaks down. It needs a person to fix it.

LIVEWORKSHEETS

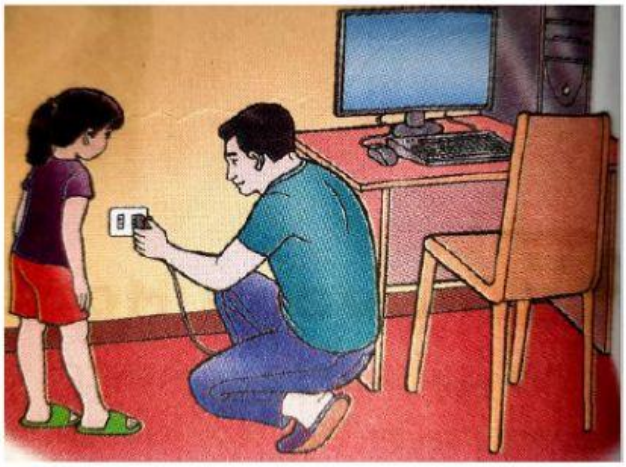

2. A computer cannot think and act on its own. It needs instructions from people.

3. A computer needs data to work on. Data is a collection of information. A person is needed to provided data to the computer.

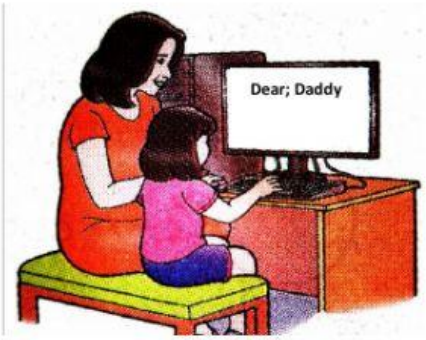

4. A computer cannot work without electricity.

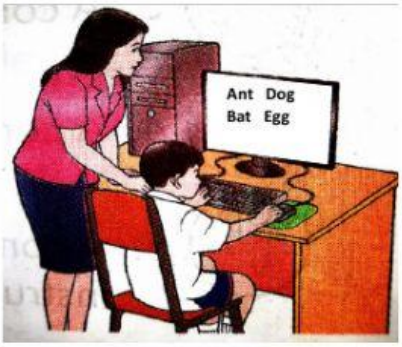

LIVEWORKSHEETS

Draw a line to match the words and the pictures that show what you can do using a computer.

1. Watch a movie

2. Talk to father

3. Read new words

4. Play a game

5. Send a message
