## MAKING A WEB PROFILE

Magic Tricks with Google:

if you type in the bar *do a barrel roll* then enter, you will see the entire screen flip.

1. Label the images. Use the word bank

DESKTOP - SOCIAL NETWORK - TABLET  
SMARTPHONE - LAPTOP

## 2. Look at these two examples of descriptive paragraphs and choose the one that is written correctly.

### Paragraph 1

A web profile is good and you need to show something about yourself. It needs to have some nice information about who you are and maybe your likes and dislikes. And you can use all the information you want. You can show your originality. There is no problem with it. You can make friends and play online. My brother has one, but I don't.

### Paragraph 2

Creating your own web profile is not a difficult task and it can make you very popular. Anyone can have a web profile and they are easy to make. It must have a clear and nice presentation. It can be simple and dull or sophisticated and interactive. It can connect to other media applications and interesting and fun sites. If you want to have many followers online, make your web profile and update it every day with attractive ideas or even pictures. It is a piece of cake!

## 3. Write your own paragraph about any website that you often visit. There are words to help you. (40 to 50 words)
