

Q1: Read the following text then answer the questions below:

We need trees in order to live. Trees give us oxygen. They help cool the Earth and give off water. When we cut down a tree, we can plant another one. This new tree will grow and give us oxygen, too. Many things are made from trees. If you want to do something to help the Earth, you can plant a tree!

1. Circle the answer below that tells what the paragraph is all about.
 - a. Oxygen
 - b. The importance of trees
 - c. Helping the Earth.
2. Write the main idea of this text and the supporting details.
