

LET'S PRACTISE!

1 Write the words.

seed carbon dioxide fruit leaves root oxygen

a root 

b 

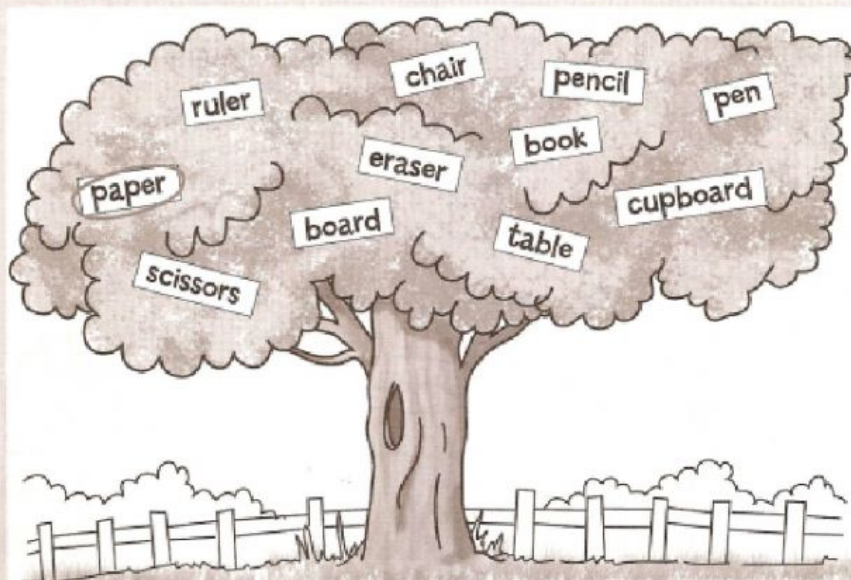

c 

d 

e 

f 

2 Look around your classroom. Circle the words that are made from plants.

3 Read and order the words. Make sentences.

1 we plant? Shall grow a

2 Which grow? we plant shall

3 we do need? What

4 put shall our plant? Where we

5 does water How much plant the need?

6 the plant water? How often need does

1 ...Shall we grow a plant?

2

3

4

5

6

4 Now answer the questions. Write the correct number.

We need some cotton wool, some water and a glass.

Let's grow these seeds.

It doesn't need very much.

We must put it next to the window.

It needs some every day.

Yes, that's a good idea.
