About me

I'm really ¹into technology. I always have my tablet with me so I can ² online whenever I want. It's brilliant for listening ³ music. I can ⁴ songs that I like from the internet, and I've just got some new ⁵, so I can listen on the bus on my way to school. It's also got a really good camera. I often take photos and ⁶ them with my friends online. I haven't got a ⁷ stick though – I don't often take photos of myself. I send a lot of instant ⁸ to my friends and I sometimes ⁹ games, but not very often. My brother loves games, but he only likes really modern ones, not ¹⁰old- ones.
