The success of “TIKTOK” and the danger to mental health

TikTok is a social media platform whose basic function is to create, to share and to discover short videos (15 seconds long). The app is used by kids, young people and adults as an outlet to express themselves through singing, dancing, comedy, and lip-syncing, and allows users to create videos and share them across a community.

TikTok is so addicting because the algorithm TikTok show us contents that we like.

Pros and Cons of TikTok On Kids' Mental Health:

One of the most common concerns about this platform is the effect it can potentially have on one's mental health. We will explore various ways TikTok can affect today's youth.

• Pros:

1. It's Funny - TikTok is full of comedy scenes, duets, and interesting dances, all very funny for kids and youngsters.

2. It's Good for Making Friends - Social media removes the pressure of communicating directly, face-to-face, making it a lot easier for some kids to express their thoughts, feelings, and make new friends.

3. It Can Be a Good Creative Outlet - It can be beneficial for kids' self-expression and creativity.

4. It Offers Earning Money - The app provides from 100 to 10,000 virtual coins that range in price from 99 cents to \$99.99. TikTok coins are an in-app currency that people can buy if they are at least 18 years of age

• Cons:

1. You Can Get Exposed to Sexual Predators - Its dangerous and problematic because some individuals send explicit messages and images to children. Many users and parents had to report predatory behavior to the police. So, be careful!

2. It Can Harm Privacy Often, kids film in front of their homes, show off their homes' interiors, share their locations, show off their parents' cars, and display the license plate, etc. Some individuals can use this information for malicious purposes.

3. It's Prone to Negative Comments - There are great chances of receiving negative comments. Many people feel worried and insecure when reading them.

4. It Can Harm Self-Esteem A large volume of negative comments, or even a single one, can have a devastating impact on a kid's self-esteem and confidence, and can result in self-harm or body image issues. This can deeply hurt one's mental health.

Glossary:

Whose - cujo (a)	concern - preocupação	Range - alcance	Harm -prejudicar, machucar
Outlet - saída	way - maneira	Price - preço	Often - geralmente
Themselves - a si mesmos	today - hoje	\$ - dólar	Home - casa, lar
