Student number: \_\_\_\_\_

Date: \_\_\_\_/\_\_\_\_/\_\_\_\_

Chapter 1 (pg 13- 17)

## Respiratory system

In our respiratory system, the \_\_\_\_\_ branches into two \_\_\_\_\_ which continue to branch out into \_\_\_\_\_ and end up in tiny \_\_\_\_\_ sacks known as \_\_\_\_\_. When we inhale or breathe in, the air enters our \_\_\_\_\_, flows along the \_\_\_\_\_, through the bronchi, then the bronchioles and finally into the \_\_\_\_\_.

**Fill in the diagram of the respiratory system**

When we exhale or breathe out, the air flow in reverse order.

**Label the diagrams**

## KEEPING OUR RESPIRATORY SYSTEM HEALTHY

*(list briefly the seven key points)*

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_
4. \_\_\_\_\_
5. \_\_\_\_\_
6. \_\_\_\_\_

### FILL IN THE BLANK

#### INHALE:

1. The diaphragm muscle \_\_\_\_\_.
2. The ribcage moves \_\_\_\_\_ and \_\_\_\_\_.
3. The volume of our lungs \_\_\_\_\_.
4. Air flows \_\_\_\_\_ our lungs.

#### EXHALE:

1. The diaphragm muscle \_\_\_\_\_.
2. The ribcage moves \_\_\_\_\_ and \_\_\_\_\_.
3. The volume of our lungs \_\_\_\_\_.
4. Air flows \_\_\_\_\_ our lungs.
