

## Problems with input devices

Mariam went to the Tasjeel with her father. They tried to input their details into the machine using the keyboard, but nothing was happening.

Help Mariam to figure out what the problem is by answering the questions below.

1. The issue is being caused by which type of device?
  - a. input device
  - b. output device
  - c. storage device
  - d. processing device
2. As well as a computer Keyboard, give another example for this type of device.
  - a. Printer
  - b. Microphone
  - c. SD card
  - d. Projector
3. What could be the issue with the device?
  - a. There could be an incorrect refresh rate.
  - b. Computer connected to the speakers is using the wrong device for speaker output.
  - c. Could be some loose or faulty cables attached between the monitor or computer
  - d. A USB port can be damaged, meaning there is no power or connection.
4. Write one more reason that could be causing the issue?
