

Problems with output devices

Sultan has a doctor's appointment. He is waiting for his number to be announced at the surgery. The number appears on the screen, but the sound doesn't work.

Help Sultan to figure out what the problem is by answering the questions below.

1. The issue is being caused by which type of device?
 - a. input device
 - b. output device
 - c. storage device
 - d. processing device
2. Which device is causing the issue?
 - a. monitor
 - b. mouse
 - c. keyboard
 - d. speakers
3. What could be the issue with the device?
 - a. Paper loaded incorrectly into the printer.
 - b. Computer connected to the speakers is using the wrong device for speaker output.
 - c. Could be some loose or faulty cables attached between the monitor or computer
 - d. There could be an incorrect refresh rate.
