Transaction security

Speaking **1** What are the potential security threats to online shopping? Share your ideas with the group.

Reading **2** Read this email. Answer these questions.

TO: All Employees

From: IT Director

Subject: Online transactions security

We are developing new website security features. We will have a virtual private network with a firewall which will help stop cyber attacks on the network perimeter. The web application protection firewall (WAF) will protect our website from hacker attacks on customer contacts and login boxes. Secure Socket Layer (SSL) will create a secure connection for the users. We will have two-factor authentication (2FA). Website administrators will go through two layers of security before they access the hosting environment. This will prevent password leaks. All data will have encrypted backup to protect sensitive information.

I am sure the company will benefit from the new security measures.

Thank you

Hamda Banna

1 How many security features will the company have?
2 Which security feature will stop attacks on the company network?
3 What solution will protect customer contacts and login boxes?
4 What will protect private user information sent over the network?
5 What will the two-factor authentication prevent?
6 What will protect information?

Language

Future (*will* + infinitive)

We use **will** + infinitive without *to* to talk about plans for the future. (Something we think, believe or know will happen.)	*The new security system **will protect** our customer's better.*
	*Hackers **won't/will not get** into the network.*
	*When **will** we **change** to the new security system?* *We'll/we **will** do it next month.*
	***Will** the new system **have** a firewall?* *Yes, it **will**./No, it **won't**.*

Listening **3** 32 Listen and repeat these sentences.

1 The company won't provide Internet access to all employees.
2 I'll do the security checks and then upgrade this week.
3 When will you finish the work?
4 Yes, I will.
5 No, she won't.
