Dear Tony,

I am writing this letter to tell you about my latest idea for our club. Last night I watched an exciting programme on TV. It was a documentary about dolphins and whales. I liked the part about whales. They are such wonderful creatures! Among other things they said that whales are in danger of extinction. I thought it was terrible, but at the end of the programme they said we could save them by adopting a whale! You send a sum of money twice a year and you get information about your whale. The sum of money is a bit high but I thought that if all members took part, our club could adopt a whale. Now I would like to know your opinion.

Write to me as soon as possible.

Bye for now,

Bob
