

## Module 1: Ratios and Rates

### Lesson 2: Tables of Equivalent Ratios

1. Find equivalent ratios by multiplying by 2, 3 and 10:

<b>Peanuts</b>	<b>2</b>			
<b>Candies</b>	<b>5</b>			

<b>Squares</b>	<b>3</b>			
<b>Circles</b>	<b>4</b>			

<b>Pencils</b>	<b>1</b>			
<b>Pens</b>	<b>6</b>			

2. Find the missing values:

<b>Drops of Yellow</b>	<b>6</b>	<b>?</b>
<b>Cups of Icing</b>	<b>2</b>	<b>8</b>

**3.**

Check

To make three loaves of banana bread, you need 9 bananas. How many bananas are needed to make one loaf of banana bread?

<b>Loaves of bread</b>		
<b>Banana</b>
