

# ANEXO 4

1º PRIMARIA

## NÚMEROS DE DOS CIFRAS (Del 30 al 39)

Diagram illustrating the decomposition of the number 35 into tens and units:

- Initial decomposition: 35 is shown as 20 + 10 + 5.
- Step 1: "Con 2 números" (With 2 numbers) shows 35 as 30 + 5.
- Step 2: "Con 1 solo número" (With 1 single number) shows 35 as 35.
- Step 3: "Rompeamos" (We break) shows 35 as 30 + 5.

Al final, Localizamos el 30 en todos los lugares

Blank diagram for decomposing the number 28 into tens and units:

- Initial decomposition: 28 is shown as 20 + 8.
- Step 1: A box with a plus sign (+) for decomposition.
- Step 2: A box for the final result, which branches into two boxes with a plus sign (+) between them.

Blank diagram for decomposing the number 21 into tens and units:

- Initial decomposition: 21 is shown as 20 + 1.
- Step 1: A box with a plus sign (+) for decomposition.
- Step 2: A box for the final result, which branches into two boxes with a plus sign (+) between them.
