

5-Wi-Fi password cracking

Read And Match
(Student book page 18-19)

Password attacks

Password spraying

Dictionary attacks

Brute-force attacks

Rainbow attacks

Traffic interception

Explanation

Trying every possible combination of letters, numbers, and symbols in the password space until they get it right.

Large dictionary of precomputed values and the passwords that were used to generate them.

A few commonly used passwords across many accounts. For example, 'password123' and 'qwerty.'

Who has access to your account or device(humans and machines) can easily read plain text or unsecured passwords.

Tries every word in a dictionary or a list of commonly used words as a password.
