5-Wi-Fi password cracking

Password attacks	Explanation
Password spraying	Trying every possible combination of letters, numbers, and symbols in the password space until they get it right.
Dictionary attacks	Large dictionary of precomputed values and the passwords that were used to generate them.
Brute-force attacks	A few commonly used passwords across many accounts. For example, 'password123' and 'qwerty.'
Rainbow attacks	Who has access to your account or device(humans and machines) can easily read plain text or unsecured passwords.
Traffic interception	Tries every word in a dictionary or a list of commonly used words as a password.
