

KEEPING HEALTHY

Keeping healthy is really important to be active every day, so we need to **eat colorful salads and food** in order to be very well and strong, for example veggie salads lettuce, tomatoes, carrots, radishes, onions and avocados which are delicious salads and vegetable soup. Therefore, we need to **eat proteins** such as **fish, chicken, meat, eggs, milk, fruits, grains** and **drink 8 glasses of water per day**. Also, we need to **do exercises** between 30 minutes and an hour per day in order to reduce stress and **sleep for 8 hours a day** because our body need to rest. Finally, we need to **brush our teeth 3 times a day** and **take a shower** daily and **wash our hands frequently**. **Don't forget to wear mask and keep social distance 2 meters** in order to avoid Covid 19.
