

IL MILLIMETRO

Ogni centimetro è diviso in 10 piccoli spazi separati da lineette. Ogni piccolo spazio si chiama **MILLIMETRO**

0 1 1 centimetro è composto da 10 millimetri (1cm. → 10mm.)

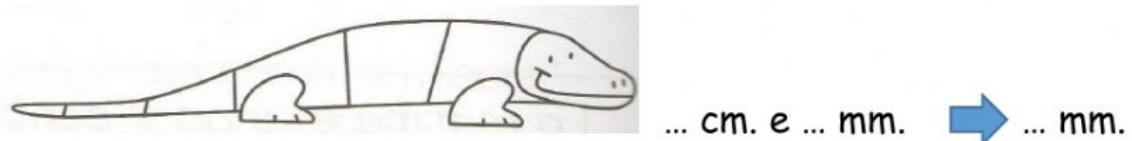

Osserva la misura delle figure sul righello e completa con la risposta esatta.

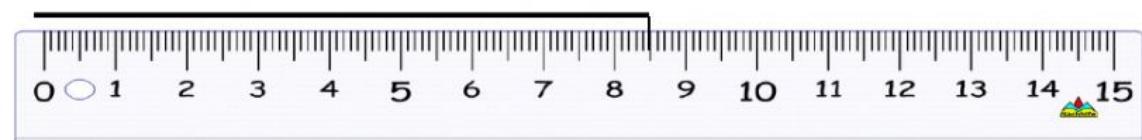

...3... centimetri e ...5... millimetri

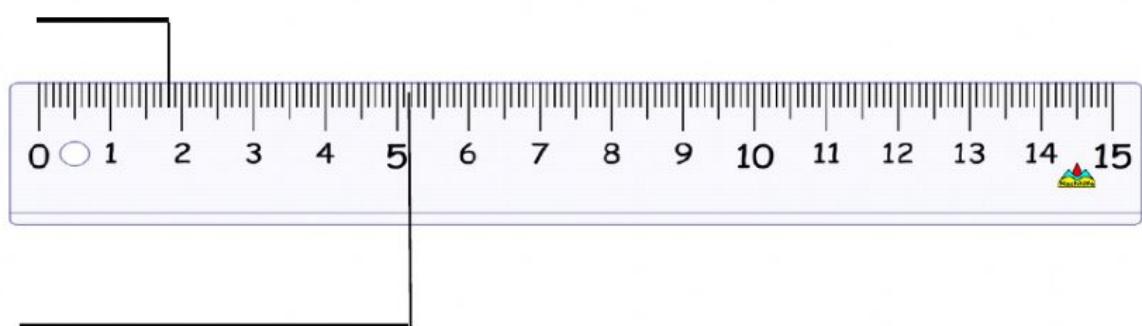

Esempio: .35. millimetri

... cm. e ... mm. → ... mm.

... cm. e ... mm. → ... mm.

... cm. e ... mm. → ... mm.
