

DICHOTOMOUS KEY or IDENTIFICATION KEY ACTIVITY

First, one member of the group chooses an animal from the list, but don't tell the other person!

Now the other person will start asking the questions starting from the number 1.

Depending if the answer is **yes** or **no** you have to go to the next step.

For example:

In the question 1, you must ask the other person if the animal flies.

If the answer is yes, you know is a bat, but if the animals does not fly, you must continue to step 2.

The ones that guess the other person's animal, wins!
