LIVEWORKSHEETS

I. Odd one out.

1.	A. Reporter	B. collector	C. gardener	D. newspaper
2.	A. stamps	B. album	C. collector	D. mountain
3.	A. skating	B. climbing	C. gardening	D. horse-riding
4.	A. hate	B. enjoy	C. love	D. like
5.	A. unusual	B. favorite	C. popular	D. common

II. Read the passage and decide if each statement is True (T) or False (F).

Our school has a model club. The members of the club try to make water rockets. The students taking part in the club love discovering new things and learning science subjects. A water rocket doesn't cost you much. You can use the things you have used such as empty bottles, old tyres of bicycles. The models has two main parts: the base and the rocket. The rocket made from empty bottles should have blades in its tail and a pointed head. The pump in the base is made of water pipes and it can increase the pressure of water. These parts help the water go in the correctpath as the members have planned. When we use the pump to increase the pressure of water, the rocket will take off and fly into the air. Our school club has just won the first prize for making waterrockets.

1. The members of the model club have a love of science.
2. You can use old things to make water rockets.
3. It is expensive to make water rockets.
4. The high pressure of water can make the models fly.
5. We cannot control the water rockets at all.

LIVEWORKSHEETS

III. Read the passage and answer the questions.

Along with jogging and swimming, cycling is the best all-round forms of exercise. It can help to increase your strength and energy, giving you a stronger heart. You don't carry the weight of your body on your feet when cycling. It is also a good form for people with a pain in your feet or your back. You should start your hobby slowly. Doing too quickly can have bad effects. You should cycle twice or three times a week. If you find you are in pain, you will stop and take a rest.

1. Why is cycling a good form of exercise?

.....

2. Why might people with a pain in the back go cycling?

.....

3. What will happen if you do too quickly?

.....

4. How often should you go cycling?

.....
