a subject in which we can study about the computer and the programs in it.

a subject in which we can learn about important people, events in the past.

A room used to learn Art.

An outdoor area where children can play, especially at school or in a park.

**Task 3: Read and choose True/False**

My name is Robin. I'm thirteen. Maths is my favorite subject. I am interested in it when I was a child. Maths is a subject in which we can learn about numbers and how to count. I like doing Maths with numbers. Maths helps me develop my ability to think logically. I can think faster and react better to numbers thanks to Maths. I always spend a lot of time reading books about Maths. I want to share what I know about Maths with people who love this subject like me. In the future, I want to become a good Maths teacher.
