## Unit 5: Review II VITAL FUNCTIONS

### 1. Fill in the blanks: (be careful with the spelling)

- Living things perform three vital functions. These are: _____

  _____

- The nutrition of plants is _____ because they make _____ biomolecules that they need from _____ biomolecules.

- The nutrition of animals is _____ because they eat _____ to get the nutrients and _____ they need.

- Herbivores eat _____, carnivores eat _____ and omnivores eat _____

- _____ is the green substance that absorbs energy from the Sun to make _____.

### 2. Match up the two halves:

| | |
|---|---|
| Interaction with the environment | To produce new organisms |
| Nutrition | To notice changes and respond |
| Reproduction | To get food and use it to stay alive |
