Topic : Descriptive Texts	Sub : Public Places

Choose the most appropriate answer by clicking A,B,C, or D!

My school is one of the best schools in my town. No wonder that this school is always attracted the new students every year. It is quite natural because the school always gets the first rank in every competition event followed both in the city and provincial levels.

Besides the achievements in many competitions, the school facilities are also one of the factors that encourage many students want learn in this school. The school building area is around 2 hectares, divided into four local buildings. At the first entering the school, we will see the first local building, namely the teachers' lounge, administrative offices, and student activities space. After passing the first building of the school building complex, we will find a class building complex, the classroom consists of a room on the north, two classrooms on the south, and three classrooms on the west.

In the middle of the class buildings there is a very broad field and is usually used by students to play basketball, football, and even badminton or tennis. My school facilities were arguably the most complete. There are so many facilities such as science laboratory, language laboratory, library, green house, multimedia room, hall, parking area, and a fitness room.

Although it has so many buildings, there are many plants with shady trees that lined in all corner. Even in front of each classroom, there is a quite large flower garden. The school, which is the best school in this town always makes me proud.

Since I was a junior high school student, I love reading very much, especially reading history and technology books. I am so lucky because in my school is the best school in my town.

There is a large library that has a collection of books which is very complete. In fact, according to my teachers, my school library is the most complete library in the city. It is proven from so many visitors that come from the other schools in order to look for a book reference.

My school library building is very large, it is about 50 X 70 M2 and it has two floors. Inside the library, there are so many shelves of books neatly organized according to the type of the books. At the shelves, are saved hundreds of books. In the front row of the book shelves, there are rows of chairs and desks used by visitors to read or work on their assignments. It is also equipped with air conditioning so that the visitors feel comfortable to spend their hours in this room. Moreover, there are also three computers which can be used to search for books, so the students can easily find it.
