

Sararas Witaed Suksa School

Subject: Mathematics

Kg2/ \_\_\_\_\_

Count the objects and then choose the correct number in the boxes.

This section contains two groups of objects for counting. On the left, there are six red candles with yellow flames, arranged in two rows of three. On the right, there are two identical dog houses, each with a dog peeking out from the top. Each dog house has a white sign with a blue number inside. The first dog house has the number 6, and the second dog house has the number 9.

This section contains two groups of objects for counting. On the left, there are five colorful swirl lollipops on sticks, arranged in a row. On the right, there are two identical dog houses, each with a dog peeking out from the top. Each dog house has a white sign with a blue number inside. The first dog house has the number 2, and the second dog house has the number 5.
