

# Levitating

If you wanna \_\_\_\_\_ away with me, I know a galaxy

And I can \_\_\_\_\_ you for a ride

I \_\_\_\_\_ a premonition that we fell into a rhythm  
the music don't \_\_\_\_\_ for life

have

Glitter in the sky, glitter in my \_\_\_\_\_

like

eyes

Shining just the way I \_\_\_\_\_

If you're feeling like you need a little bit of company

You met me at the \_\_\_\_\_ time

You \_\_\_\_\_ me, I want you, \_\_\_\_\_

you

dance

My sugarboo, I'm levitating

take

I

The Milky Way, we're renegading

Where

run

Yeah-yeah-yeah-yeah

I got \_\_\_\_\_, moonlight, you're my starlight

baby

I need you all night, come on, \_\_\_\_\_ with me

stop

I'm levitating

perfect

You, moonlight, you're my starlight (you're the  
moonlight)

want

\_\_\_\_\_ need you all night, come on, dance with me

I'm levitating
