

Изваждане на числата до 4

$4 - 1 = \square$
 $4 - \square = 3$
 $\square - 1 = 3$

$4 - 2 = \square$
 $4 - \square = 2$
 $\square - 2 = 2$

$4 - 3 = \square$
 $4 - \square = 1$
 $\square - 3 = 1$

2

2 - 1

1

$2 - 1 = \square$

3

3 - 1

2

$3 - 1 = \square$

3 - 2

1

$3 - 2 = \square$

3

3 - 3

$3 - 3 = \square$

$1 - 1 = \square$

$2 - 2 = \square$

$4 - 4 = \square$

$5 - 5 = \square$

Благодаря
