

Exponents Practice

Exponents = Repeated Multiplication

You multiply the base (large number) by itself as many times as the exponent (small number above base) tells you to.

3 ← Exponent

5 ← Base

$$5 \times 5 \times 5 = 125$$

1. 2^8
2. 3^3
3. 4^0
4. 1^{10}
5. 5^4
6. 11^4
7. 8^2
8. 10^6
9. 6^5
10. 7^3
