

Chop onion, red bell pepper and add that to a **pan** with a little olive oil on medium heat.

Add the tomatoes and use your spatula to break up the tomatoes into smaller pieces.

Then add the garlic and salt and stir for another minute until they're nice and fragrant.

Season the eggs with pepper

Reduce the heat to low, cover the **pan** and cook for another 5-8 minutes

Once this entire **mixture** is lightly simmering, you can crack your eggs on top.
