

PIRÁMIDES NUMÉRICAS

Es importante continuar con los retos... si pudiste realizar el anterior con satisfacción ahora solo debes aplicar lo mismo en estas construcciones

The image shows two numerical pyramids on a city street background. The left pyramid has 4 rows: Row 1 (top) is empty; Row 2 contains 17 and 15; Row 3 contains an empty box and 8; Row 4 (bottom) contains 500, 132, and an empty box. The right pyramid also has 4 rows: Row 1 (top) contains 47; Row 2 contains an empty box and 22; Row 3 contains an empty box and 12; Row 4 (bottom) contains an empty box, 8, an empty box, and 6. Below these, another set of numbers is shown: 197, 224, 120, 45, and 29, arranged in a similar pyramid structure with empty boxes for missing numbers.

MISIÓN CUMPLIDA
