When you open a newspaper, you will always find information about some (3) _____, or an article about your favourite kind of sport. Television programmes about (4) _____ are also very popular, and you can watch something interesting nearly every day. Stories about (5) _____ men or women in the world of sport are often very interesting.

Task 10: Read the paragraph and decide the statements are true or false. Write T for true and F for false.

Energy is fundamental to human beings. Many poor people in developing countries do not have modern sources of energy like electricity or natural gas, with which their life can be improved.

People who live in mountainous areas have to gather wood for fuel. This takes a lot of time. For many people living in rural areas, biogas is the largest energy resource available. The main use of biogas is for cooking and heating, but it can also provide energy for public transport. As biogas is smoke-free, it helps the problem of indoor air pollution. Moreover, it is made from plant waste and animal manure. They cost almost nothing.

The tendency to use renewable energy sources in developing countries is on the increase as non-renewable ones are running out. In the future, the wind and the sun will be used as the most important environmentally friendly energy sources.

- _____ 1. Non-renewable sources are being used up.
- _____ 2. Many poor people in developing countries lack of access to electricity.
- _____ 3. Biogas is a new source of energy available for poor people.
- _____ 4. Biogas creates a lot of smoke.
- _____ 5. The new energy source is not costly.

International Phonetic Alphabet (IPA)
